A-Minor (Set of 3) - A3, C4, E4

### Dimensions:

Max Width: 46cm

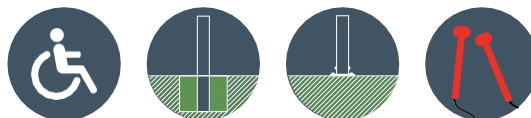

Max Height: 170cm

Whether you call them cattails, reeds, or bullrushes, these sleek chimes are instantly recognizable as the slender marsh plant with tall stems and dark brown velvety heads.

Stainless-steel 'stems' support the three or six light bronze cylindrical anodized aluminum chimes, which produce tranquil and harmonic sounds when struck with small soft green mallets.

Perfect for playful interactions along nature trails, in parks, or in woodlands, citizens can stop and enjoy a moment of musical mindfulness while exploring the great outdoors.

Cattail Chimes are sent with two different end caps for you to choose from. Closed-end caps for a flush finish (as shown in the images of the set of three chimes) and pointed end caps to replicate the staminate of the cattail (as shown in the image of the set of six chimes). Both will prevent debris from entering the chime and affecting the sound produced.

*NB: Installation through existing **synthetic grass**, repairs will be carried out but will be unable to match existing quality.*

*NB: Installation through existing **soft-fall**, repairs will be carried out but will be unable to match existing colour.*
