## Djembes

Model: Unpitched Percussion

## Djembes

Model: Unpitched Percussion

### Dimensions:

Weight: 50kg

Width: 25-35cm

Min Height : 60cm

Max Height: 85cm

Djembes, with their large 'heads, ' allow multiple beats from low to high to be made, with players able to create unique and versatile sounds simply by hitting or slapping the different areas of the Djembe's head with their hands.

The stainless steel body makes this a smart choice for urban environments, delivering high-class performance and featuring robust construction for enhanced durability.

Djembes have fantastic acoustic properties and are built for easy play. With their distinct goblet shape, Djembes make beautiful additions to an outdoor space.

*NB: Installation through existing **synthetic grass**, repairs will be carried out but will be unable to match existing quality.*

*NB: Installation through existing **soft-fall**, repairs will be carried out but will be unable to match existing colour.*
