Handpipes

Model: C Major Diatonic (G3-C5)

Handpipes

Model: C Major Diatonic (G3-C5)

Dimensions:

Weight: 40kg

Width: 91cm

Depth: 25cm

Max Height: 96cm

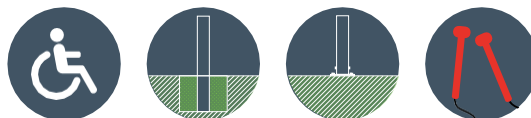

The Handpipes are a plosive aerophone designed to be played with just your hands (hence the name) to deliver a wonderfully funky sound with a lot of soul. Easy to play, you'll master them in no time at all with just a little practice. The diatonic tuning allows the musically motivated to play hundreds of tunes, be creative and improvise to their heart's content.

The pipes are arranged diatonically and set in a high-density polyethylene (HDPE) mounting. There are no beaters or mallets, as you need nothing but your own hands to play. However, you may purchase a pair of our dense PE (Polyethylene) foam paddles if you would prefer.

Play that funky music - a very entertaining and rewarding musical adventure awaits!

Product Highlights
