Marimba

Model: C Major Diatonic (C3-C5)

Marimba

Model: C Major Diatonic (C3-C5)

Dimensions:

Weight: 57kg

Width: 157cm

Depth : 93cm

Max Height: 86cm

Our large outdoor Marimba is big enough for up to four people to come together and play at any time - great for impromptu and improvised performances, which are relaxing and fun, plus a new and exciting way to explore music-making.

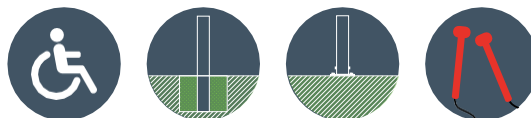

The fifteen chunky notes are supported by heavy-duty stainless steel cable and made from Fibreglass Reinforced Plastic tuned to the diatonic scale of C-Major. When hit with the attached mallets, they make a mellow, warm, rich sound. The GRP is made to look like our favourite hardwood – Purple Heart - it's also extremely strong, robust, and virtually maintenance-free.

The contemporary stainless steel stands look delightful anywhere, from an inclusive public park, school playground, woodland, or private garden area.

This Marimba experience allows musicians and non-musicians to perform creative music in interesting outdoor settings.

Product Highlights
