Diatonic

Weight: 85kg Depth: 48cm Width: 80cm Height: 268cm

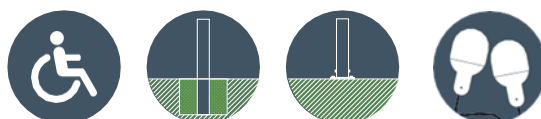

Blues

Weight: 80kg Depth: 48cm Width: 70cm Height: 362cm

Quirky and intriguing with a great sound to match, our range of plosive aerophones called Tembos are made of stainless-steel tubing.

Tembos (Swahili for elephant) produce bouncy, exciting sounds when the ends of the “trunks’ are hit with the EVA foam paddles.

Available in three different tunings; Pentatonic for easy improvisation with no clashing or dissonant notes, Diatonic so players can play familiar or favourite tunes as well as improvising or composing their own and finally Blues Scale which produces a very familiar deep bluesy sound.

*NB: Installation through existing **synthetic grass**, repairs will be carried out but will be unable to match existing quality.*

*NB: Installation through existing **soft-fall**, repairs will be carried out but will be unable to match existing colour.*
