Use: 1-3 people

Materials:

- Australian Sustainable Timber Logs - Dressed and Sealed
- Galvanised Steel Footings

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Alligator Log Crossing

Model: SNP-04

Dimensions:

2.0m long x 0.3m wide x 0.5m high

Use: 1-3 people

Materials:

- Australian Sustainable Timber - Dressed and Sealed
- Galvanised Steel Footings

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Iron Bark Hopping Log

Model: SNP-05

Dimensions:

0.3m long x 0.3m wide x 0.5m high

Use: 1-3 people

Available in sets of 5

Materials:

- Australian Sustainable Timber Hardwood
- Dressed and Sealed

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Pallet Deck Hardwood

Model: SNP-06

Dimensions:

1.00m long x 1.00m wide x 0.36m high

Materials:

- LOSP Treated Pine Frame
- Dressed & Sealed Merbau Cladding
- Galvanised Steel Footings
- Stainless Steel Fasteners

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Adventure Trail Tread

Model: SNP-08

Dimensions:

0.13m long x 0.33m wide x 1.8m high

Use: 1-3 people

Available in set of 6 or individually (2 or more)

Materials:

- Australian Sustainable Timber - Dressed and Sealed

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Pallet Deck Composite

Model: SNP-09

Dimensions:

1.00m long x 1.00m wide x 0.36m high

Materials:

- LOSP Treated Pine Frame
- Dressed & Sealed Merbau Cladding
- Galvanised Steel Footings
- Stainless Steel Fasteners

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Log Jump

Model: SNP-10

Dimensions:

0.86m long x 0.25m wide x 0.5m high

Use: 1-3 people

Materials:

- Australian Sustainable Timber - Dressed and Sealed
- Galvanised Steel Footings

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Totem Pole with Coloured Stripes

Model: SNP-14

Dimensions:

0.25m long x 0.25m wide x 1.5 to 2.4m high

Materials:

- Iron Bark - Dressed & Sealed

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Mud Kitchen

Model: SNP-19

Dimensions:

2.2m long x 0.6m wide x 1.2m high

Materials:

- Timber-Grain Coated Aluminium Legs - No Rust

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Totem Climb

Model: SNP-20

Dimensions:

0.30m long x 0.30m wide x 2.75m high

Materials:

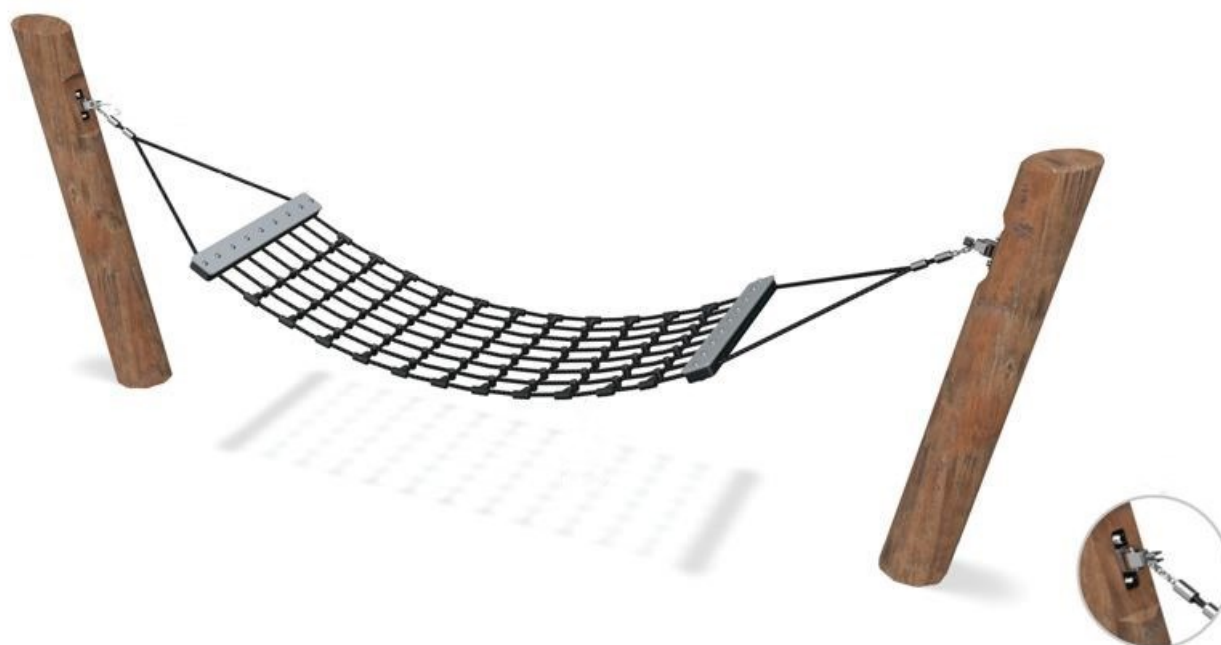

- Australian Sustainable Timber—Dressed & Sealed
- Climbing Handles
- Stainless Steel Fasteners

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Rope Hammock with Timber Posts

Model: SNP-21

Dimensions:

4.05m long x 0.74m wide x 1.53m high

Materials:

- Australian Sustainable Timber Hardwood —Dressed & Sealed
- All Stainless Steel Hardware
- High-Density Polyethylene (HDPE) Panels
- Steel Reinforced Nylon Rope

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Arc Bridge

Model: SNP-24

Dimensions:

3.4m long x 1.0m wide x 0.6m high

Materials:

- Merbu Decking - Dressed & Sealed
- All Stainless Steel Hardware

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Balance Log 2M

Model: SNP-26

Dimensions:

3.4m long x 1.0m wide x 0.6m high

Materials:

- Merbu Decking - Dressed & Sealed
- All Stainless Steel Hardware

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Balance Beam Cross Over

Model: SNP-27

Dimensions:

1.0m long x 0.70m wide x 0.50m high

Materials:

- Cypress Pine Beam - Dressed & Sealed
- Galvanised Steel Footings

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Zig Zag Balance Beam

Model: SNP-29

Dimensions:

3.25m long x 0.85m wide x 0.50m high

Materials:

- Australian Sustainable Timber Hardwood - Dressed & Sealed
- Cypress Pine Beam - Dressed & Sealed
- All Stainless Steel Hardware

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.

Tee Pee

Model: NTP-001

Dimensions:

2.4m long x 2.4m wide x 3.5—4.0m high

Use: 5 + people

Materials:

- Iron Bark - Dressed and Sealed
- Stainless Steel fasteners

Timber Nature Play equipment works to develop physical, sensory and social skills. The irregular timber shapes and textures are meticulously sanded and pre-coated with timber oil.

This provides the natural cognitive benefits that little fingers need, without the splinters.
