NATURAL ACTIVITY CIRCUITS

Natural Activity Circuits

Natural Activity Circuit is a purpose-designed primary school play solution that promotes physical activity through play in a safe, engaging and nature-inspired environment within school grounds. It is suitable for use during lunch and recess breaks and provides valuable support for before- and after-school care programs by encouraging children to stay active, healthy and positively engaged.

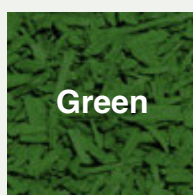

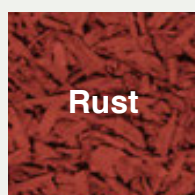

Each circuit is custom-installed to suit the available space at your school, maximising the use of existing outdoor areas. Three standard circuit sizes are available—Small, Medium and Large—with a range of optional additions to further enhance movement, play and learning opportunities.

The Natural Activity Circuit offers an effective way to revitalise underutilised or vacant spaces, transforming them into inviting and dynamic activity zones that support fitness, balance, coordination and imaginative play.

Standard Natural Activity Circuit Includes:

- Timber Bridges
- Rubber Balance Logs
- Rubber Domes
- Rubber Animal Elements
- Sandstone Stepping Stones
- Timber Nature Play Elements
- Percussion Play
- Sensory Panels

Rubber Item Colours
